DEPARTMENT OF INFRASTRUCTURE ENGINEERING

**\*NOTICE\***  
**UPCOMING BUILDING INSPECTIONS**

Employees of the Town's wastewater consultants, Weston & Sampson, will be in your area in July through September to conduct inspections of private residences as part of the Town's sewer inflow removal program. The program is more fully described in the attachments to this Notice.

Building inspections are being conducted by two person teams in a "door-to-door" manner, Monday through Friday, between 8:00 am and 7:00 pm. Inspections are expected to last 10-15 minutes and will require entry into the basement or lowest level of your home. The exterior of each building will also be inspected. Inspectors may take photographs if you authorize them to do so.

All authorized inspectors will have photo identification issued by the Town of Dedham Police Department. **DO NOT ALLOW ANYONE INTO YOUR HOME UNLESS THEY HAVE SHOWN YOU PROPER IDENTIFICATION.**

Please be advised that you are not required to allow inspectors to enter your property and no one will enter unless you have provided written consent by signing the form enclosed herewith.

If you wish to schedule an inspection at a particular date or time, or if you prefer to have your inspection conducted by a licensed plumber of your choosing, the Town of Dedham requests that you please call our wastewater consultant, Weston & Sampson at (781-355-7706).
